Alexandria Noise Ordinance: Proposed Revisions

Title 11 Chapter 5 of the Alexandria City Code

What is Noise?

- Unwanted sound that interferes with one's hearing
- Unwanted signal or disturbance
- Measured based on the amplitude (energy) and frequency (pitch) of a sound wave
- Soundwave energy is measured in decibels:
 - Loudness or intensity
 - Expressed on a logarithmic scale

Typical Sounds and Relative Loudness

The **decibel (dB)** is a unit for describing sound pressure levels. A-weighted sound measurements (dBA) are filtered to reduce the effect of very low and very high frequencies, better representing human hearing. With A-weighting, sound monitoring equipment approximates the human ear's sensitivities to the different sounds of frequencies.

Why Revise the Ordinance?

- Changes in law
- Opportunity to evaluate entire Ordinance
 - Originally passed in 1963
 - Provisions amended periodically

Noise Ordinance Revision: Process

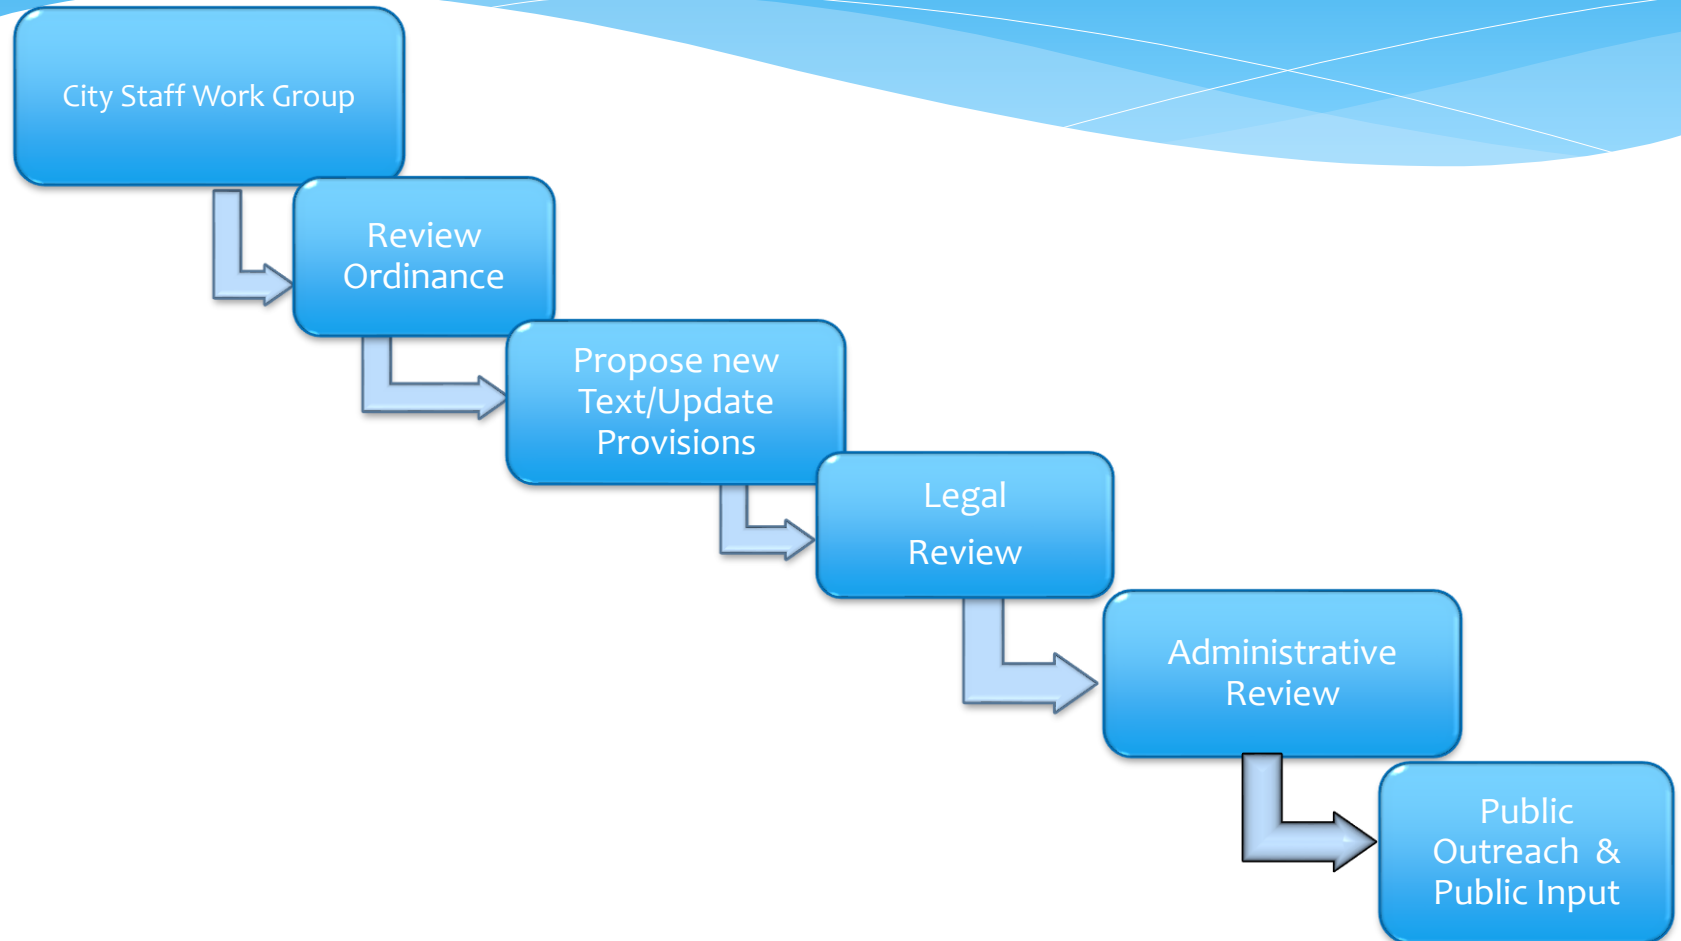

Interdepartmental City Staff reviewed ordinance

- Identified sections requiring revision:
 - No longer applicable
 - Require updating due to changes in law
- Identified topics/sources not addressed
 - Loading/unloading times
 - Measuring across shared property lines
- Reviewed other jurisdictions' ordinances
- Reviewed coordination of resources/jurisdiction
- Prepared the draft ordinance for public review

Noise Ordinance Revision: Process to Date

How is Noise Regulated in Alexandria?

- Permitted Hours for Specific Activities
- Decibel Limits by Property Use
- Prohibitions
- Issuance of Permits
- Exemptions

Permit Issuance

Noise Variance

- Temporary relief from ordinance provisions
- Issued for limited time periods
- Specific to a limited time activity
- Not a Permit to generate noise
 - Conditions to control noise impacts
 - Allows a variance from a time permitted or decibel limited activity
 - Commonly used for special events and limited/short term construction

*Special Use Permit (SUP)

- Specific noise generating activities may be included as SUP conditions
- Noise provisions within a SUP, become the applicable noise standard for that entity

**New Provision*

 **APPLICATION FOR NOISE VARIANCE PERMIT**
MUSIC & SOUND AMPLIFICATION 

If you intend to use sound amplification equipment on City Property (streets, parks, etc.), or if your event is on private property but is open to the public, you may be required to obtain a Noise Variance Permit to operate sound amplification equipment in the City.
